25X1 10. [ ] LIAISON Representative Bob Daniel (R., Va.) called on behalf of an individual in the Richmond area who had information relating to Africa and who the Congressman felt should be in touch with the DDO. I recommended that we use the [ ] office and Mr. Daniel agreed. It was agreed that I would make the necessary arrangements and inform Mr. Daniel of them. 25X1

25X1 11. [ ] LIAISON Bob Boyer, House International Relations Committee staff, called in connection with the science and technology amendment of the State Authorization bill which is due to be reported out of the Committee. Boyer said Jack Brady, Chief of Staff of the Committee, had made it clear to him that we were to get relief from the amendment and Boyer was merely interested in working out language.

25X1 12. [ ] LIAISON Bill Miller, Staff Director, Senate Select Committee on Intelligence, called and said that there was still interest in the Committee receiving a basic tutorial on counter-intelligence by CIA. I told Miller that the proposed briefing was being actively reworked and I thought we would be able to schedule the session in the near future.

I also discussed the Case Act and role of the ambassador amendments attached to the State Authorization bill in the Senate Foreign Relations Committee. I previously left with Miller material on these amendments. It was Miller's opinion that we could not successfully fight these measures on the Senate floor and I said in that case we would look to him for support from the Senate side in the conference.

25X1 13. [ ] LIAISON Received a call from Rita Argenta, Bill Hogan's secretary on the House Armed Services Committee staff, and she asked that we send a courier to the Hill to pick up some codeword material which the Committee has had for several years and no longer needs. The material was picked up and returned to OLC.
